Troy and Lisa with our new Speed the Light Suzuki Grand Vitara! Thanks New Jersey!

Speed the Light Makes Things Roll!

Last month we finally were able to get our new Speed the Light car! It is a 2008 Suzuki Grand Vitara. The roads and conditions here really take a toll on vehicles, and our last vehicle was definitely on it's last legs. It's been great getting the new car!

But Speed the Light does much more for us than just provide cars. Our primary responsibility is in media ministries, and that takes some very special equipment, and all of it is provided by Speed the Light! Our cameras, editing computers, microphones, cables, etc, all come from Speed the Light funds. Thanks for all your help! We couldn't do it without you!

Shooting For a June Release

We are continuing to make progress on our evangelistic film, "The Last Letter". There is a good bit of editing still to do, as well as preparing the evangelistic program to go with it, not to mention marketing and distribution. But we are shooting to release the film in June. Please pray with us that all the final details will be completed on time.

Prayer Requests

- **Pray for creativity and anointing from the Holy Spirit as we finish editing the evangelistic film**
- **Pray for continued health and safety for our family**
- **Pray for God's leading and direction as we continue to develop new projects**

Shots from the climactic scene in our evangelistic film, "The Last Letter"

To see our latest video thanking Speed the Light for their support, (and to see our new STL car and some of our STL video equipment) check out the video page on our website at:
