Cambodia Cassette Bible Institute Moves Ahead!

The Cambodia Cassette Bible Institute (CCBI) is preparing for a major “upgrade” in it’s ministry. Because of constant changes in technology, using cassette tapes for distance education has become less effective in recent years. Today, digital audio is the way to go. So during the next year CCBI will be changing over to a digital audio format to more cost effectively meet the needs for discipleship around the country.

Our CCBI staff are meeting regularly with students to help them in their studies, and look for new opportunities. During the past year, Bunthan, one of our CCBI staff, has even been meeting regularly with Khieu Samphan, the former head of state, and last official leader of the Khmer Rouge, to share the gospel with him.

Lisa and Her Ministry

During our time in the USA Lisa continues to prepare for various ministries she will be involved with when we return to Cambodia. In addition, she has been doing more speaking at both churches and district ministry events.

This spring, Lisa is also going through the process of being officially licensed as an Assembly of God minister.

Deputation Update!

We continue to visit churches, sharing about Cambodia and our ministry, and raising funds to return to the field. So far we have:

- Driven about 25,000 miles (more than the circumference of the earth)
- Flown more than 22,000 miles
- Spoke in more than 100 churches

Prayer Requests

- Pray for us to quickly raise the remaining funds necessary to return to the field in August.
- Pray for the continuing work of CCBI
- Pray for Lisa as she goes through the ministerial licensing process
